

Escape Slides & Equipment

A trusted source for your survival equipment.

For more than 12 years, we have been trusted to service and overhaul our customers' most critical equipment – escape slides and rafts. Our AmSafe® facility in California has been approved by the Federal Aviation Administration (FAA) as a repair station for survival equipment. We carry a full line of replacement parts and can assist you with maintenance and overhaul services for all of your survival equipment requirements.

Escape slides must be serviced properly and reputable products must be used. We provide replacement cylinders that are approved by the FAA and by the parts manufacturers, and we offer them at prices significantly lower than OEM pricing. In addition to replacement cylinders, AmSafe offers supplemental components for additional slide and oxygen cylinders.
