

Net Inspection and Repair

Trust one name for the inspection and repair of your cargo nets.

AmSafe® is the prime supplier of main deck barrier nets, bellyhold nets, smoke curtains and cargo liners to major aircraft manufacturers and operators worldwide. As the experts in textile cargo restraint systems, we can inspect and repair your product to the highest standards required by global regulatory authorities.

At AmSafe we use only approved materials and/or processes in maintaining your equipment. The materials we use are those specified by the original manufacturer. To contain costs we can assist by using alternative materials and processes that have passed the required testing and have been approved by you (our customer) and the applicable regulatory authority.

Equipment Capabilities

- *Airbus Models.*
- *Boeing 7 Series and MD Series.*
- *Bombardier Regional Jets.*
- *Embraer Regional Jets.*
- *BAE146/RJ.*
- *Saab 340 and 200.*

Net Inspection & Repair

We have developed customized service programs to suit your needs. These programs offer a selection of turnaround times as well as a variety of pricing options ranging from 'time and material' to 'monthly service' programs.

AmSafe Provides What Our Customers Demand

- **Schedule** – ability to choose your turnaround time, with dependable on-time delivery and expedite options as requested (usually at no additional charge).
- **Capability** – support the requirements on just about every major operating airframe.
- **Quality** – systems ensure each repair is delivered with only qualified materials and excellent workmanship.
- **Price** – select the programs that is best for you.
- **Replacement** – ability to provide an off-the-shelf new replacement, if required.
- **Solutions** – engineering abilities to develop new repair programs at the request of our customer.
- **Service** – friendly, communicative customer service personnel that keep you informed of your order status or unpreventable delays.
