RESTRAINTS FOR DEFENSE

AmSafe incorporates the most advanced technology available for military restraint systems. Superior materials, unique manufacturing techniques, and in-house dynamic testing to ensure soldiers are safe and secure.

AmSafe® applies our engineering expertise to develop innovative restraint systems for military applications. These unique restraints incorporate the most advanced technology and are designed to reliably protect military personnel in severe environments and areas of conflict both on and off the battlefield.

DESIGNED TO PROTECT OPERATING CREWS

AmSafe restraints are found in both vehicle and aviation defense applications worldwide. AmSafe utilizes in-house engineering expertise in vehicle dynamics and the operating environment to test, configure, and apply our proven seatbelt technology to unique military applications.

AmSafe restraints endure rigorous dynamic testing to replicate real-world situations. All AmSafe restraints are designed for improved survivability, reliable performance in severe environments, and ease of use and comfort for the passenger. From concept through to production AmSafe restraints continually evolve to meet the distinctive demands of our military customers.

GROUND VEHICLE RESTRAINT SYSTEM

- 3, 4 and 5-point static and retractable
- Multi point release buckles in rotary, dual mode, push button and lift release
- Load-limiting retractors
- Unique restraints for enhanced BLAST protection
- Inflatable restraint technology
- Pretensioner restraints - mechanical and pyrotechnic belt pretensioners
- Harsh environment hardware & retractors designed to reduce the introduction of debris

AmSafe products are focused on ease of use and comfort to encourage usage

GROUND VEHICLE SUPPORT AND SERVICE
- HMMVV
- MRAP
- Land Rover
- Stryker
- Bradley
- FMTV
- Pinzgauer
- BLAST seats
- JLTV

AVIATION RESTRAINT SOLUTIONS
- UH-60 Helicopter
- UH-60 Gunner
- C-17 Globemaster
- CH-53K Helicopter

A full range of solutions for other rotorcraft and fixed-winged applications

WORLDWIDE CUSTOMER SUPPORT AND SERVICE
As the world leader in crew and passenger restraint systems, we have dedicated continuous support and service centers located around the world – you can depend on AmSafe to provide you with technical expertise for your restraint requirements.
