

AVIATION RESTRAINTS

With more than 30 years in the aviation restraint business, AmSafe® has delivered millions of seatbelts worldwide for commercial airlines, general and business aviation, and rotorcraft applications.

EVERY TIME YOU FLY, CHANCES ARE YOU BUCKLE UP WITH AMSAFE

You will find AmSafe restraints installed on every commercial and regional airframe manufacturer's aircraft, including Airbus, Boeing, Bombardier, and Embraer.

COMMERCIAL AVIATION

- ⓧ Patented 16g teardrop buckle
- ⓧ Multi-point crew, flight attendant, and passenger restraints
- ⓧ Custom restraints for every airframe and seat application
- ⓧ Over 150 webbing colors to match any interior

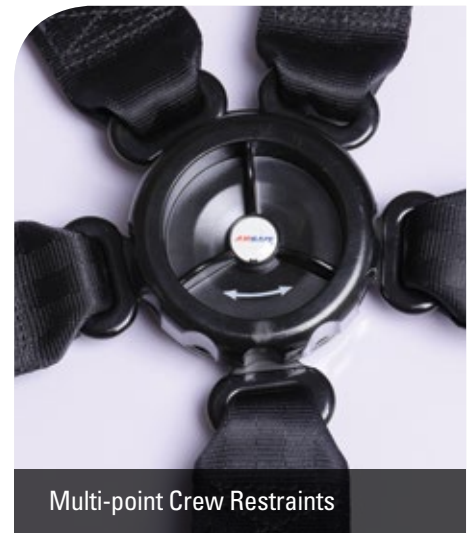

GENERAL AVIATION & BUSINESS JETS

- ⓧ Multi-point crew and passenger restraints
- ⓧ Custom restraints for every airframe and seat application
- ⓧ Ultra lightweight, compact inertia reel, and rotary buckle options
- ⓧ Numerous buckle and plating options available, with over 150 webbing colors to match any interior

ROTORCRAFT

- ⓧ Multi-point crew and passenger restraints
- ⓧ EMS patient, crew, and passenger rotorcraft applications
- ⓧ Buckle options available, including 26g automotive-style push button

Advanced materials, in-house dynamic testing, and continual research and development ensure that passengers and crew are safe and secure.

Multi-point Crew Restraints

Incorporating the most advanced technology available for passengers and crew members

AmSafe restraints incorporate the most advanced technology available for passengers and crew members. We use advanced materials, manufacturing techniques, in-house dynamic testing, and continual research and development to ensure that passengers and crew are safe and secure.
